ABOUT US

Check out our Company Promo Video:
https://www.youtube.com/watch?v=dIC0RkBxhsY

Shindiri Studio has started with serious professional work since early 2001 year. Shindiri Studio comprises a team of genuine enthusiasts and professionals. Top design production, UX/UI design, web design and development are our major services. THE GOAL of our design services is for our end products to unite in one complex graphic entity followed by complete development which will contribute to a better visibility of our clients.

Our team and co-workers are professionals in their fields, our experience and long lasting history gives us credibility in our scope of work, which makes us great partners at any level.

MAIN WORK SCOPE

Our main work scope consist of building WordPress plugins and templates for the Envato market, on which we are **1** of **100 elite authors** in a **pool of 1.500.000** authors in the whole world.

COMPLETE WORK SCOPE

Our portfolio also covers UX/UI design, designing and developing websites and building web and mobile apps, FE and BE development, making games for mobile platforms, creating incredible VR and AR solutions for numerous clients, and outsourcing.

WHY WORK WITH US?

CREATIVITY, DEDICATION AND PROFESSIONALISM!

If you are looking for a reliable partner to develop specific software applications, beside other our services at Shindiri Studio you will find an ideal balance of price and performance - "Value for Money". We are there during the full life cycle of any software – ranging from the idea for a new software product, design and programming, maintenance, support and further development. The things that separate us from others are:

- Serbia is one of the most famous outsourcing destinations in Europe and is characterized by an extraordinary ratio between price and quality, along with the vicinity to the niche markets.
- The headquarters of our company is in Nis, a big university center in Southern Serbia. Characterized by long tradition in educating IT experts, and distinctly lower expenses in comparison to other cities in Serbia.
- Great experience in IT industry and management skills in running complex IT projects and application of the highest industry standards.
- Professionalism, reliability, dedication, and efficiency.
- The highest standards of HR services and great resource database.
- Business procedures which allow full transparency and safety.
- The best infrastructure.
- Negotiation flexibility

TEAM
